

## **GWSS Insecticide Environmental Monitoring: Meeting Notes**

**Environmental Monitoring Branch  
Department of Pesticide Regulation  
PO Box 4015, Sacramento, CA 95812**  
[www.cdpr.ca.gov/docs/gwss](http://www.cdpr.ca.gov/docs/gwss)

### **San Jose**

#### **Resident and Public Meetings:**

1) July 23, 2001; 6-7 p.m.

Casa Alondra Mobile Home Park  
Clubhouse, Monterey Road, San Jose.  
Attendees: Santa Clara Co. Ag.  
Commissioners, CDFA, DPR, UC  
Cooperative Extension, County  
Veterinarian, a vintner, and 2 residents.

Heather Casjens, Pam Wofford (DPR) and Mert Price (County) discuss environmental monitoring plan with a resident at Casa Alondra.

2) July 23; 8-9 p.m.

Southside Senior/Community Center.  
Attendees: County and State officials, a  
vintner and 3 residents.

Kevin O'Day Deputy Ag. Commissioner discusses treatment plan at the Senior Community Center's meeting.

3) July 24; 7-8 pm

Alex Anderson Elementary Auditorium  
Attendees: State officials, residents, TV  
station (KRON), press, environmental  
groups, vintners and about 15 residents.

**Purpose:** to address residents' concerns  
regarding treatment of GWSS  
infestations with carbaryl and  
imidacloprid.

Greg Van Wassenhove, County Ag.  
Commissioner, addresses the public and the  
press.

#### **Highlights:**

- 1) Officials (County and CDFA) addressed questions on safety of carbaryl to residents, children, honeybees, chemically sensitive individuals, pets, and residues on fruits and yards.
- 2) County presented plan to treat 13 properties at the Casa Alondra and 24 properties at the Wyandotte neighborhood with foliar carbaryl and soil injected imidacloprid. In addition, selected crape myrtle trees surrounding these properties will be treated with soil injection of imidacloprid.
- 3) DPR presented information and addressed questions on our air and foliar sampling plan and results from other counties.
